

### 3 WAYS TO USE YOUR LOVE TEA TUMBLER

Enjoy your Love Tea Tumbler for Tea, Coffee, Smoothies, Fruit-Infused water or even plain water!

1. Sip Fruit Infusions
2. Steep your tea or coffee
3. Drink smoothies or water

### BEFORE YOU FIRST USE YOUR LOVE TEA TUMBLER

Hand wash all parts in hot soapy water (not containing bleach or chlorine).

You can also use lemon or vinegar if there is any packing scent.

Dry the bamboo immediately, and allow the bottle to air without the lid overnight.

The tumbler is brand new and has not been opened since it's been made—if strong scent persists, air for 48 hours.

### USING YOUR INFUSER BASKET AND STRAINER

The infuser basket + strainer fit inside the bottle at the top—they will lightly click into place. To use the strainer by itself, simply unscrew the strainer and infuser basket. Place your ingredients inside the bottle body and place the strainer at the top of your bottle.

1. Strong Infusion: leave ingredients floating in tumbler and use strainer.
2. Light Infusion: steep ingredients in infuser basket and then remove.
3. Tea Bag: steep in tumbler.

### WASHING YOUR LOVE TEA TUMBLER

Hand wash the bottle with a bottle brush.

Lid, infuser basket + strainer must also be hand washed.

Do not soak bamboo in water.

Dry immediately as natural bamboo expands and can then crack.

### STAINLESS STEEL TIP:

Over time, tea and coffee can leave stains on your strainer and infuser basket.

To restore your strainer and infuser to a stainless steel color, put baking soda on an old toothbrush and gently clean.

### HOW TO PREVENT LEAKS:

When using hot water, wait at least 1 min to allow steam to rise before closing the lid.

Don't overfill—leave at least a half-inch of space at the top.

Gently twist the lid securely, in line with the threads.

### HOW TO CARE FOR:

As in life, all things of value require attentiveness and care.

Your tea tumbler will last many years providing you:

- ✓ DO hand wash and dry immediately to preserve the natural bamboo
- ✗ Do NOT microwave or freeze tumbler or any parts.
- ✗ Do NOT use with carbonated beverages.
- ✗ Do NOT leave dairy or citrus beverages in tumbler more than 12 hours to avoid buildup from possible fermentation.
