

3 WAYS TO USE YOUR SACRED TEA TUMBLER

Enjoy your Sacred Tea Tumbler for Tea, Coffee, Smoothies, Fruit-Infused water or even plain water!

1. Sip Fruit Infusions
2. Steep your tea or coffee
3. Drink smoothies or water

USING YOUR INFUSER BASKET AND STRAINER

The infuser basket + strainer fit inside the bottle at the top—they will lightly click into place. Unscrew to use separately.

1. Infuser basket and strainer attached
2. Strainer only attached
3. No infuser basket or strainer

WASHING YOUR SACRED TEA TUMBLER

Hand wash the glass bottle with a soft bottle brush.

Lids, infuser basket + strainer must also be hand washed.

STAINLESS STEEL AND GLASS TIP:

Over time, tea and coffee can leave stains on your infuser and glass.

To restore your infuser's stainless steel color, use baking soda + an old toothbrush to gently clean your infuser + glass bottle.

NOTE: The Double Walled Glass is for insulation, not extra strength. The outer glass is durable, however, the inner layer is thin—so heat or cold can travel into the vacuum layer between the glass.

If the vacuum is compromised by being knocked or dropped, the glass can shatter.

HOW TO PREVENT LEAKS:

When using hot water, wait at least 1 min to allow steam to rise before closing the top lid. Don't overfill—leave at least a half-inch of space at the top.

Gently twist the lids securely, in line with the glass threads. Make sure the silicon seals are positioned correctly—grooves facing OUT toward the glass.

If you are experiencing leaks, the seals may have moved out of place. To re-align them, follow these 3 easy steps:

1. Gently push the edges of seal out of the lid using a butter knife or spoon.
2. Take seal out from the lid.
3. Realign seal + push into the lid using the back of a spoon. Ensure the smooth side of the seal faces into the lid and the grooves face OUT toward the glass.

HOW TO CARE FOR:

Since we're more accustomed to plastic water bottles, it's easy to forget the tumbler is a glass product and will break if set down too hard on a hard surface, or is knocked over.

However, the benefits of drinking from glass are worth the extra care—we promise!

Your tea tumbler will last many years providing you...

- ✓ DO be careful not drop, knock it over or hit against hard surfaces
- ✗ Don't use metal spoons or instruments inside the glass bottle as this can break the glass.
- ✗ Don't drop large chunks of ice into the glass body, as this will break the inner glass – use crushed ice only, or place ice into liquid with care.
- ✗ Don't carry bottle in a bag as it's easy to forget and may break if placed down too hard.
- ✗ Don't microwave or freeze glass or any parts.
- ✗ Don't go from hot to cold too quickly—don't put cold liquid into a hot tea tumbler (for example after washing) or vice versa.
